

# EdTech Training Guide

<https://tinyurl.com/MCIUEdTechGuide>

**Purpose:** The guide is intended to be a resource for educators as they learn to use specific technological tools that are supported by their school district.

**How to Use This Guide:** [Page 2](#) is an interactive table of contents. Each tech tool has been aligned to a category. Click on the link of a tool you would like to learn more about and you will be pushed down to the curated resources below. There are guides for a range of abilities and use cases for each tool. *We advise that users do not make a copy of this document so you may continue to have access to the most recent set of curated materials.*

**Please note:** It is important to review and abide by the terms of service for each tool, resource, and content provider. Teachers should follow school and district guidelines for implementation.

**Requesting Further Additions:** We are accepting contributions and requests for additional tutorial resources to be curated into this document from our Montgomery County, PA school districts. Please email your request to Brandon Langer at [blanger@mciu.org](mailto:blanger@mciu.org).
